Part-Time CFO London Financial Services

Description

Our client is a firm of Chartered Financial Planners based in the city of London, they are well respected and have won numerous awards.

They are looking for a [part-time CFO](#) to join, initially to support a project, then thereafter one day per week longer term. This is a prestigious role within [London's financial Services Sector](#).

Previous financial services experience essential.

Responsibilities

Partnering with an impressive management team, you will be tasked with the following:

- **Business Partnering:** An incredible opportunity to work with department heads to understand & optimise business performance. Understand the key commercial areas (revenues, costs, timing of invoicing, cashflow) and identifying any potential opportunities and mitigating potential risks.
- **Accounting & Controlling:** It is expected that the successful candidate will have full responsibility for leading the finance function. Taking ownership of transforming the systems, controls and processes to support the business growth.
- **Reporting:** Ownership of reporting, improving, and maintaining quality and standards.
